

CarboMet

Metrology of Carbohydrates of Enabling European Bioindustries Newsletter January 2018

[Help shape the next EU Research & Innovation program](#)

Your input is needed! Provide your view to the consultation [here](#) by 8th March 2018.

[CarboMet Kick Off Meeting](#)

The working group participated in the meeting which took place on 9th February 2017 in Berlin following GlycoBioTec2017. To find out more visit the CarboMet website [here](#).

[First CarboMet Scoping Workshops](#)

A series of 3 one hour workshops were held during EuroCarb2018, CCIB, Barcelona on the afternoon of Wednesday 5th July 2017. The aim was to explore and scope the development of chemical and physical tools in the various areas, including: polysaccharide-based vaccines, precision diagnostics and the role of dietary carbohydrates in maintaining a healthy gut microbiome.
